

## WHERE COMMUNICATION TRANSFORMS LIVES

At Tiegerman, we are committed to unlocking each student's potential through innovative educational programs, personalized therapies, and a strong focus on developing communication skills. Our goal is to help children and young adults with language and learning differences succeed academically, socially, and emotionally.

Tiegerman High School empowers students in grades 9–12 to reach their fullest potential. Our comprehensive program combines academic excellence with essential life skills, preparing students for college, careers, and independent living.

Aligned with the New York State Learning Standards, our curriculum offers five vocational pathways: Computer Arts Technology, Business and Office Technology, Family and Consumer Science, Media Arts and Technology, & Retail Marketing. These hands-on programs develop essential skills in digital literacy, administration, sales, and finance, providing students with the tools they need for lifelong success.
